Announcing JotForm Mobile Forms

Place the power of JotForm in the palm of your hand.

JotForm Mobile Forms is our new and improved mobile app that lets your organization stay connected on the move, even without internet service.

Being away from your computer shouldn't stop you from getting work done. No matter where you and your workforce are, JotForm Mobile Forms enables you to collect data offline with powerful forms you can manage through your phone or tablet.

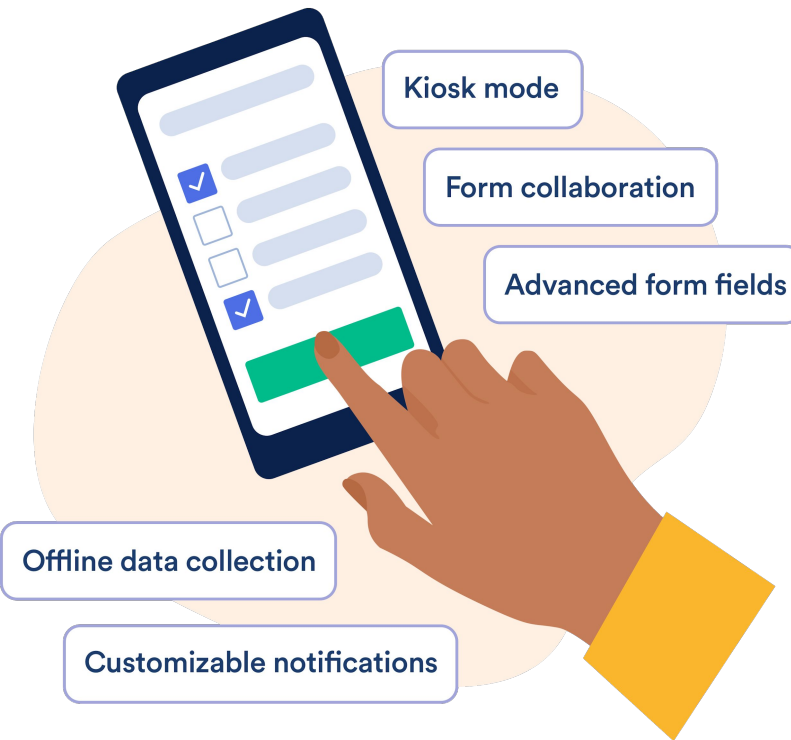

Why use JotForm Mobile Forms?

JotForm Mobile Forms lets you collect and access data anywhere, anytime. You no longer have to depend on a stable internet connection to get the information you need.

JotForm Mobile Forms offers

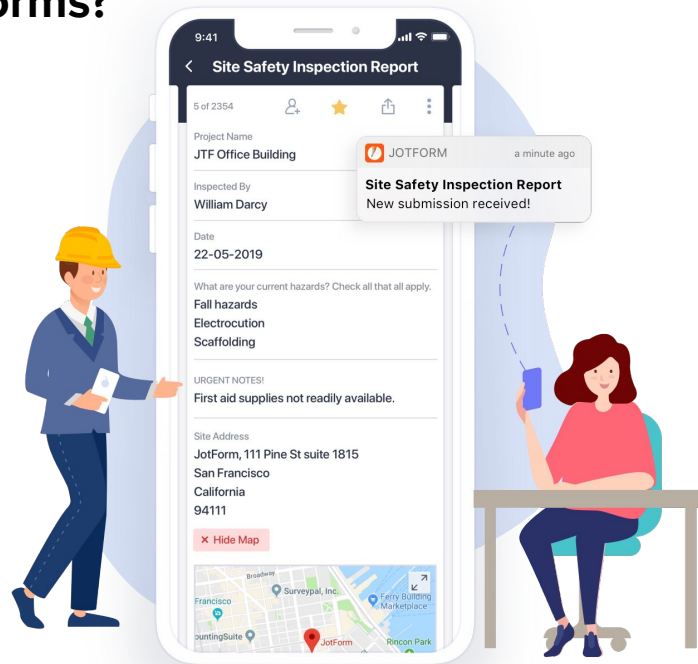

- A sleek, easy-to-use mobile interface
- Offline data collection
- Kiosk mode
- Exclusive advanced form fields
- Customizable push notifications
- Form collaboration options

What can I do with JotForm Mobile Forms?

1. Collect data offline
2. Improve your data collection
3. Keep track of incoming data
4. Work from anywhere
5. Collaborate with your team
6. Eliminate paperwork

Collect data offline

Your workflow will no longer be interrupted by internet issues.

- View your forms and submissions on any device, even without internet access.
- Submissions will automatically sync with your account once you're back online.
- The data you collect — on or offline — will always be safely stored on your device.

The image shows two smartphones side-by-side, illustrating the offline data collection process. The left phone displays the 'Waiver / Release of Liability' form with the following fields: 'Your Name' (First Name: Elizabeth, Last Name: Bennet), 'Today's Date' (05 / 05 / 2019), and 'Event or Activity' (Hiking in the Carpathian Mountains). Below these fields is a signature line with a handwritten signature 'Lizzy Bennet' and a green 'SUBMIT' button. The right phone shows the 'Thank you!' confirmation screen, which includes a green checkmark icon, the text 'Thank you!', and a message: 'Your data has been saved and will be submitted once you are back online.' A circular icon with a Wi-Fi symbol and a slash is positioned between the two phones, indicating the transition from offline to online status.

Waiver / Release of Liability

Your Name
Elizabeth Bennet
First Name Last Name

Today's Date:
05 / 05 / 2019

Event or Activity
Hiking in the Carpathian Mountains

By signing below, I acknowledge that participating in the abovementioned event or activity could expose me to dangerous situations.

Lizzy Bennet

Waiver / Release of Liability

Thank you!

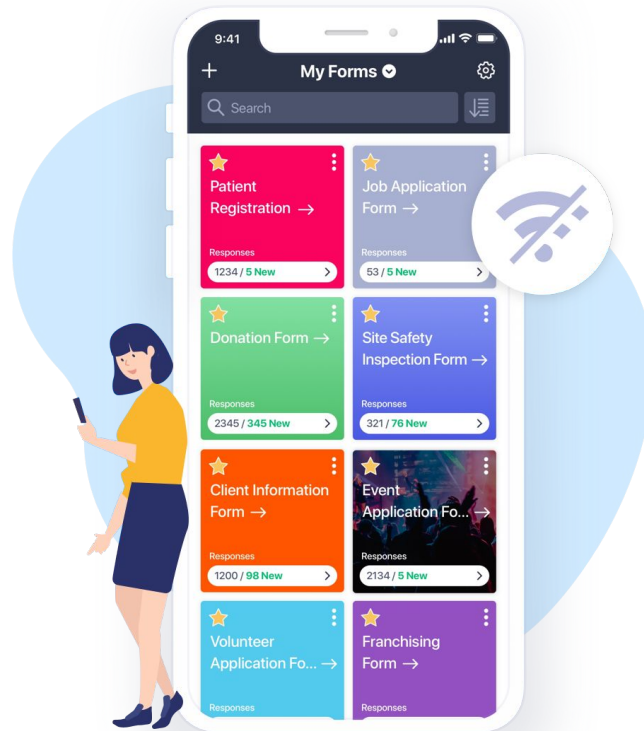

Your data has been saved and will be submitted once you are back online.

Collect data offline

Offline data collection is perfect for

- Research teams
- Field operators
- Auditors and safety inspectors
- Conference or trade show exhibitors
- Disaster relief services
- Humanitarian aid organizations
- Nonprofits and charities
- Hospitals
- Universities
- Everyone!

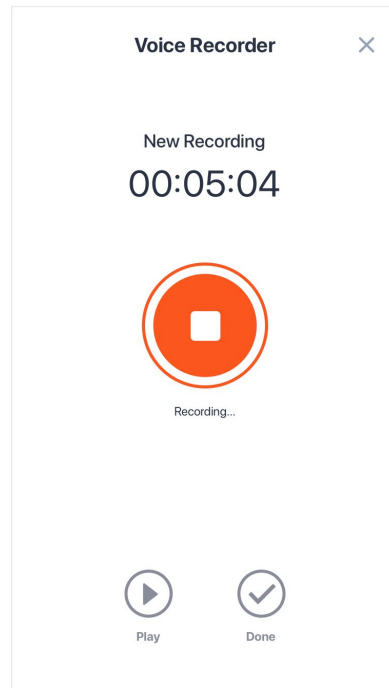

Improve your data collection

Gather more accurate data with advanced form fields exclusive to JotForm Mobile Forms:

- Geolocation
- QR and barcode scanner
- Voice recorder
- Signature capture
- Photo upload

Improve your data collection

Turn your phone or tablet into a survey station with kiosk mode.

Kiosk mode locks your device so that users can access only your form. After each entry, the form automatically refreshes so you can easily collect multiple submissions on one device.

Use kiosk mode to gather information during any event, from trade shows and conferences to street fundraisers.

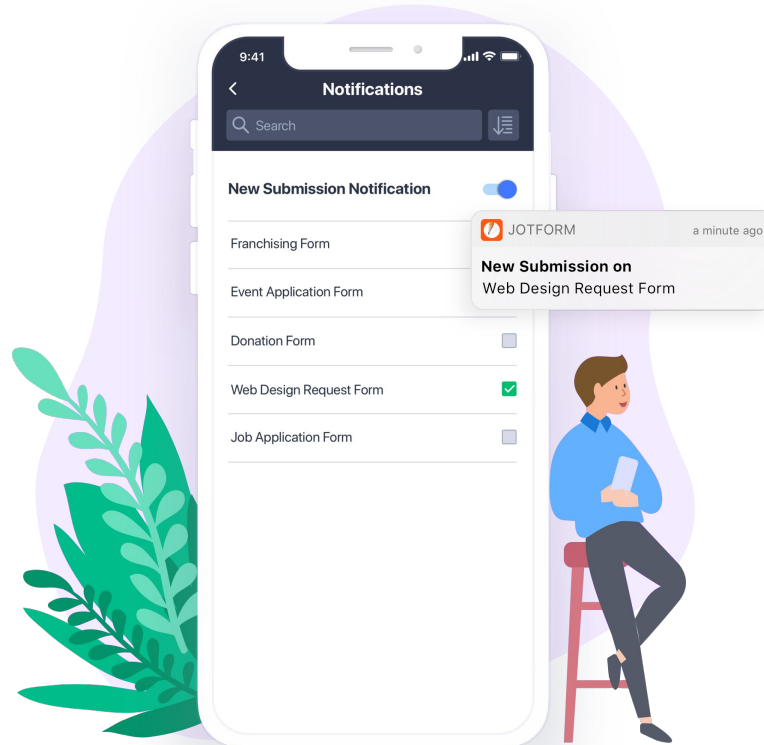

Keep track of incoming data

Whether you're in a meeting or out in the field, you should never miss important information.

With JotForm Mobile Forms, you'll stay informed about submissions no matter where you are.

Receive instant push notifications for each entry. Select which forms you want notifications for, and disable notifications when you no longer need them.

Work anywhere

Take your office everywhere you go.
Run your organization from your phone or tablet.

Collaborate with your team

Get everyone working toward the same goals.

- Assign forms to members of your team. (Team members can send and view responses on their forms without a JotForm account.)
- Increase your team's productivity by monitoring form activity and sharing feedback.
- Share forms via email, text, and other mobile apps (Facebook, Slack, LinkedIn, etc.).

Reduce paper usage

Say goodbye to paperwork and speed up your workflow.

- Quickly collect important information such as contact numbers, signatures, payments, and files.
- Avoid data entry errors by automating tedious manual tasks.
- Track submissions in real time and generate analytics reports automatically.
- Prevent forms from being lost or damaged. Keep sensitive data safe in our secure cloud servers.
- Save money on paper, ink, and office space.

The screenshot shows a mobile application interface. At the top, the status bar displays the time 16:31 and various icons. Below the status bar is a dark header with a back arrow and the text 'Custom Simple Order Form'. The main content area has a red background with a white icon of two buildings. Below the icon, the text 'Customer Order Form' is displayed, followed by '16 Questions' in a smaller font. At the bottom, there is a red bar with the text 'START' and a right-pointing arrow.

Conclusion

JotForm Mobile Forms will change the way you look at data collection.

From now on, you can

- Gather and save data on the go without internet access
- Edit forms and view submissions through your phone or tablet
- Collect multiple form entries on a single device during events
- Stay informed in real time so you can plan and act accordingly
- Assign and share forms for better team communication
- Mobilize your business, automate your workflow, and increase your productivity
