

Jotform Apps Press Kit

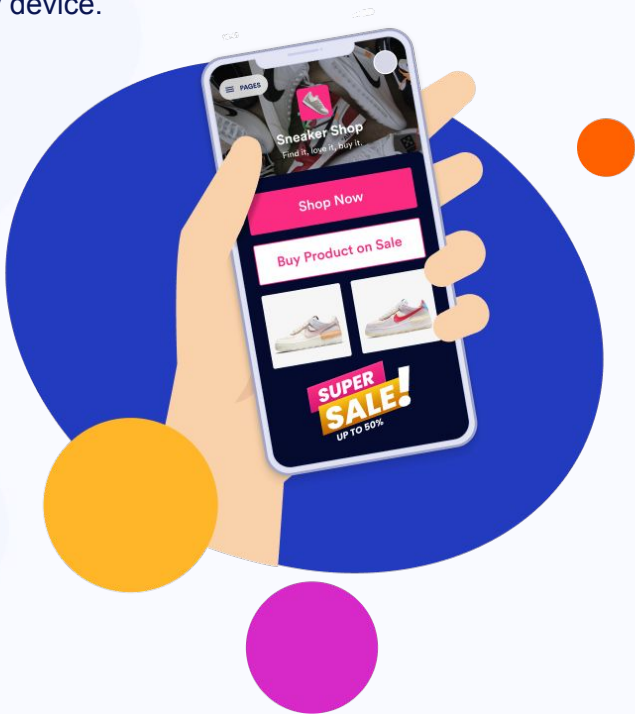

Create Mobile Apps with No Coding

What is Jotform Apps?

Jotform Apps is a free no-code app builder for anyone, and we mean anyone! From restaurants to HR teams to social media influencers, Jotform Apps allows you to build an app for your business, bundle forms, create internal portals, and more. Better yet, Jotform's apps can be instantly downloaded onto any device.

Features

- Drag-and-drop app builder (no coding knowledge required!)
- Choose from 200+ Jotform Apps templates
- Use widgets, such as QR codes, social media links, video, and more
- Customize the visual appearance, including text, color, and branding
- Create an app with a single form
- Receive payments from any device
- Access apps on smartphones, tablets, or desktop computers
- And much more!

Who is Jotform Apps for?

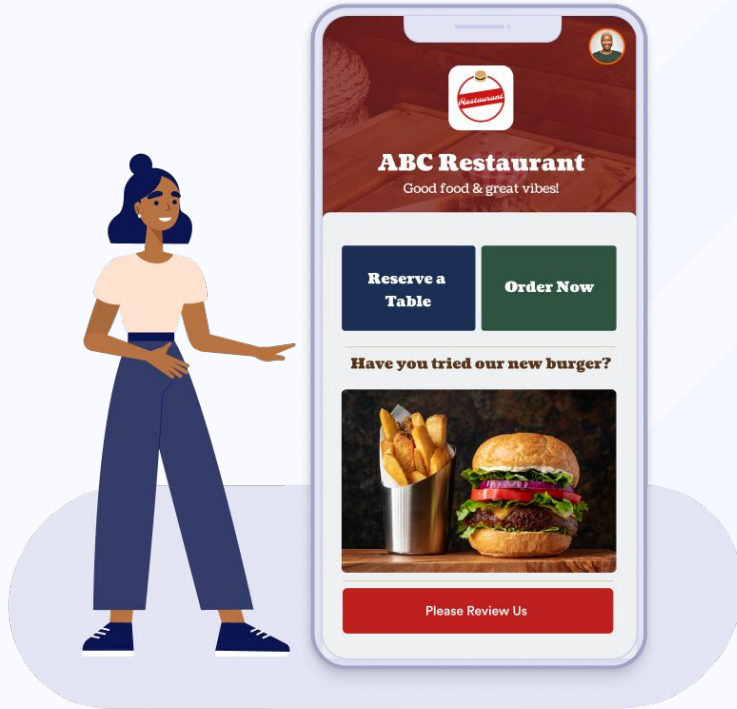

Jotform Apps is for anyone interested in creating a mobile app with no coding. Both organizations and individuals can use it with ease.

- **Organizations** can create an app to track projects, manage their business, collect payments, approve onsite visitors, and more. Additionally, they can add multiple forms to an app and share it with their employees to collect information internally.
- **Individuals** can build a checklist app to track their daily or weekly progress. They can also use Jotform Apps as a Linktree alternative.

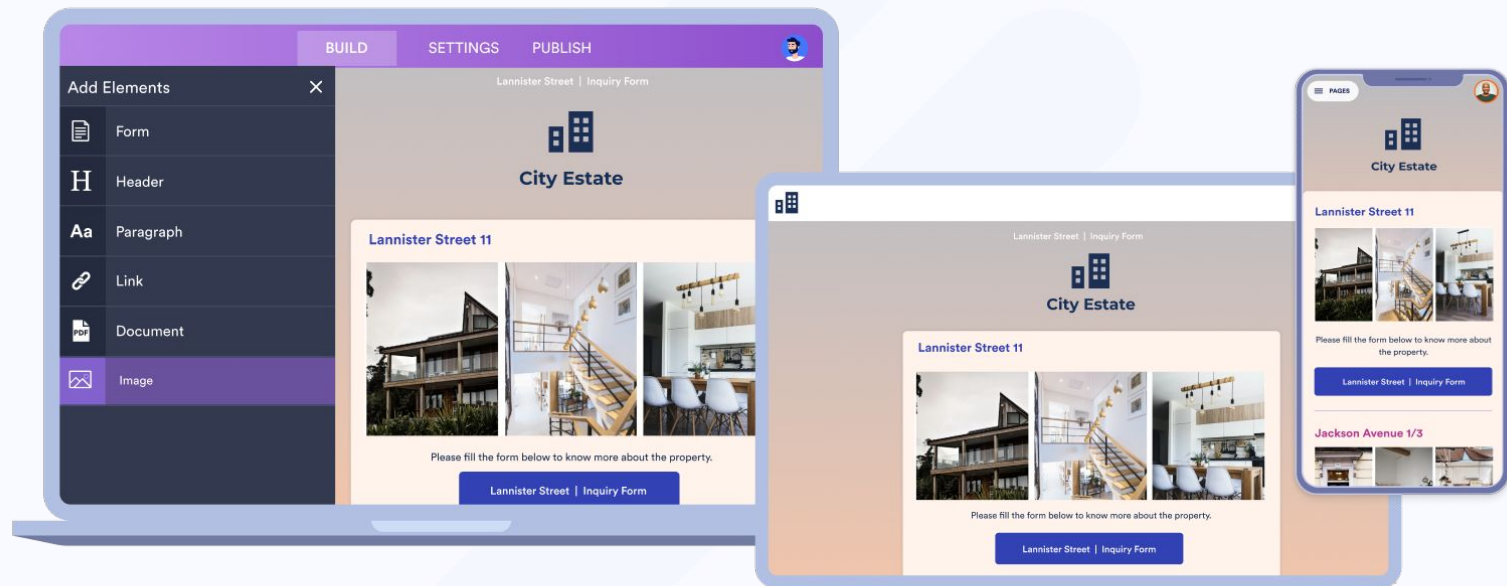

Who is Jotform Apps for?

Here are a few specific examples of how Jotform Apps is used.

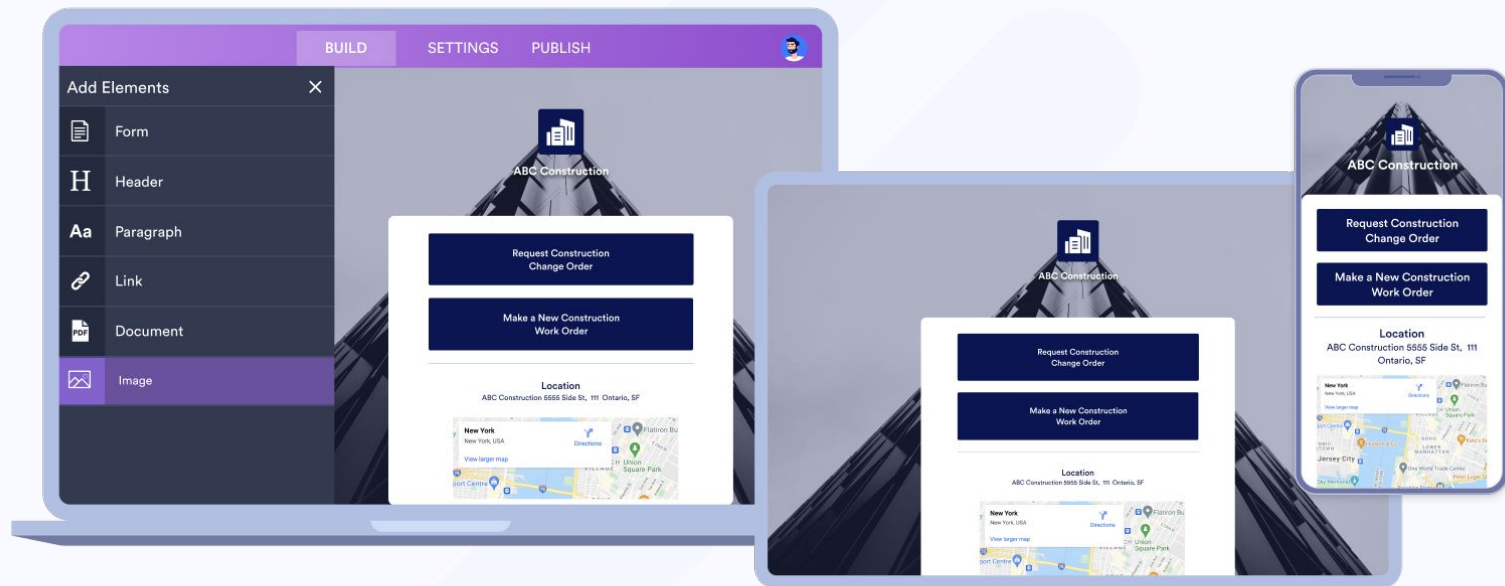

- **Restaurants** can build their own app from scratch and collect reservations, food delivery orders, reviews, and payments.
- **Inspectors** can perform inspections on any device, anywhere, such as in work safety zones, at a homeowner's property, and more.
- **Retailers** can take orders, share social media links about their business, and gather feedback from customers.
- **Beauty and wellness personnel** can book appointments, gather client information, and collect payments.
