Why Jotform Enterprise?

Create HIPAA forms easily

Build HIPAA-friendly forms in minutes with a drag-and-drop interface and hundreds of templates.

Improve access and data

Enhance patient experiences with online registration, scheduling, and more. Prefill forms with digital records to minimize paperwork and data-entry errors.

Fast, secure file uploads

Collect patient documents and images with online forms, then store and protect them with HIPAA compliance solutions.

Collect e-signatures

Collect unlimited e-signatures at no additional cost with Jotform Sign. Automate filing and reduce tech complexity and paperwork. Third-party integrations also available.

Service level agreements

A customized service level agreement (SLA) is available upon request.

Collect patient data securely

Protect patient data with 256-bit encryption, a local data residency center, and single sign-on integrations.

Accept online payments

Seamlessly integrate payment gateways with forms to securely collect fees. Choose from dozens of payment platforms, including Square, Stripe, and Authorize.net.

Power mobile capabilities

Keep staff and patients connected with a powerful mobile app. Build a patient portal to host forms, booking, and resources.

Automate workflows

Build custom workflows to send exported submission data as a PDF and seamlessly integrate with HIPAA compliance software including Google Sheets, Dropbox, Zapier, and more.

Business associate agreements

A customized business associate agreement (BAA) is available upon request.
