

Powerful Forms for Your Team

The image shows two overlapping form screenshots. The top one is titled 'Instructor Evaluation' and features four horizontal sliders for 'Satisfaction', 'Organization', 'Clarity', and 'Challenging'. The bottom one is titled 'Course Evaluation' and is a grid-based form with columns for 'Not Satisfied', 'Somewhat Satisfied', 'Satisfied', and 'Very Satisfied', and rows for 'Useful', 'Relevancy', 'Knowledge', and 'Interest'. A gear icon is visible between the two forms.

Transform your marketing processes with Jotform Enterprise. Join 25 million users who create powerful forms and automations with no coding. Maintain brand consistency, increase collaboration, and track campaigns with shared calendars and workspaces. Seamlessly integrate with your systems and collect data anywhere — even offline.

“Our marketing team is thrilled by how easy it is to create branded forms that look great. It used to take a long time, but with Jotform Enterprise, everyone on the team is happier and appreciates how much nicer the backend is compared to previous solutions.”

Simon Morgan

Senior Manager of Geographic Information System (GIS)
and business applications, Three Rivers Park District

Why Jotform Enterprise?

Streamline marketing processes

Optimize team resources and automate marketing workflows with no-code solutions. Create smart forms using a drag-and-drop builder and collect data that automatically populates tables, reports, calendars, and more.

Improve team collaboration

Create shared, centralized workspaces for teams to organize and manage resources. Grant team members specific access based on their roles.

Maintain brand consistency

Implement company branding, create custom form URLs, and even use custom domains with white-labeling features.

Accept online payments

Integrate payment gateways with forms to securely collect payments or donations with Square, PayPal, Stripe, and 40+ other payment platforms.

Enhance security

Maintain security standards with local data residency centers, single sign-on (SSO), and compliance solutions for HIPAA, GDPR, CCPA, SOC 2, and more. Track activity, manage users, customize access settings, and more from the Admin Console.

Gather more feedback

Collect valuable insights and feedback from customers and employees. Use a drag-and-drop form builder to quickly design surveys and more.

Measure success & return on investment (ROI)

Create more actionable data and transform your workflow with Jotform Tables. Automatically generate reports, assign tasks, and regularly share insights from multiple forms in a single Digest Email.

Integrate your workflows

Replace or consolidate your systems with our wide range of tools and hundreds of third-party integrations to support CRM, payments, data storage, and more.

Collect e-signatures

Reduce costs and tech complexity with Jotform Sign. Collect unlimited e-signatures for vendor contracts, design requests, and more.

Custom agreements

Customized business associate agreement (BAA) and service level agreement (SLA) available upon request.

Increase mobile access

Stay productive on the go with Jotform Enterprise Mobile. Track and manage form data on any device. Use Jotform Apps to create fully customizable apps with no coding. Auto-populate team calendars from marketing request forms to streamline communications.

Receive dedicated support

Maximize your platform use with real-time access to a dedicated customer success team and global support.
