Powerful Forms for Your Team

Focus on what matters. Let Jotform do the rest.

More than just forms

Not only is Jotform Enterprise the online form builder trusted by nonprofit organizations worldwide, it's also a powerful platform of intuitive, interconnected no-code solutions. Collect donations, register volunteers, create surveys, and manage events end-to-end, all in one place.
Also, qualifying nonprofits receive 30% off Enterprise plans.

> " *Organizations that run largely on donations and government funding now have the same tools that the tech giants have but at a fraction of the price.* "

Why Jotform Enterprise?

Enhance donor management

All your donors' information, in one place. Use custom tags to sort and organize donor data. Automate emails to donors to stay organized and stay in touch.

Increase members and donors

Bring in new members and donors with simple, beautiful forms. Pick from hundreds of templates or drag and drop to build custom forms in minutes.

Streamline fundraising

Seamlessly integrate payment gateways with forms to securely collect donations with Square, PayPal, Stripe, and 40+ other payment platforms.

Mobilize your mission

Turn your mobile device into a kiosk at any event – no internet connection required! Limit access to only a specific form and restrict access to other apps.

Meet compliance requirements

Leverage our international compliance solutions for your nonprofit. We offer solutions for HIPAA, GDPR, CCPA, SOC 2, and more.

Embed forms on your website

Create custom-branded online forms that fit seamlessly into your website. Embed forms into any page — no coding needed.

Collect digital signatures

Reduce costs and tech complexity with Jotform Sign. Collect unlimited e-signatures for petitions, contracts, and more to minimize paperwork and automate filing.

Power more integrations

Power your forms with hundreds of third-party applications to meet your unique needs, including HubSpot, Constant Contact, and Stripe. Flow data to your CRM and integrate with your SSO provider to prefill fields and set custom permissions.
